# The Commons in a Glocal World

Global Connections and Local Responses

Edited by **Tobias Haller, Thomas Breu, Tine De Moor, Christian Rohr** and **Heinzpeter Znoj**

*Series: Earthscan Studies in Natural Resource Management*

This volume focuses on how, in Europe, the debate on the commons is discussed in regard to historical and contemporary dimensions, referencing the work on Elinor Ostrom. It also explores how Europe directly and indirectly affected and affects, the commons globally from the perspective of new institutional political ecology (NIPE). This book will be of interest to students and researchers from a wide range of disciplines including natural resource management, environmental governance, political geography and environmental history.
